Subject: Greyhound racing unacceptable!!!

Dear Director,

The greyhound racing industry needs to end!

In the 21st century, living in a developed educated country, using animals for our amusement is wrong! The way these animals are treated is wrong! Their unnecessary slaughter is wrong! And the government needs to put an end to it. All ignorant people betting on the sport are living blissfully unaware of the dire consequences these animals face.

Please take action and bring this to an end.

Sincerely,

Katelyn Forster
