

INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW

Name: Name suppressed

Date received: 15/02/2013

Partially Confidential

I strongly believe that changing the definition of marriage would be very detrimental to society and the future of our children. I am pleading with you not to allow it to be changed.

Please consider how things like the media would be impacted and what our children would be exposed to on a daily basis. I personally do not believe that gay relationships are natural, I am not homophobic, I have gay friends and always have had, I do however tell them my thoughts if I were asked. I don't believe sexually that it's natural and I believe that marriage (the way it is now) needs to fiercely be protected. For so many reasons that have nothing to do with my personal opinions. I firmly believe that we need to be building marriages and families, men and women, so that our childrens needs will be met and they can also aim to work towards having strong families that include their biological parents.
