**INQUIRY INTO USE OF CANNABIS FOR MEDICAL
PURPOSES**

Name: Mr Michael Tamits

Date received: 15/02/2013

The use for medical marijuana will benefit to those who suffer pain, cancer and sleep disorders. Its inhuman to not give someone relief if they are in pain. Please stop this racist and prejudice prohibition on cannabis, there are family and friends who are taking pharmaceutical pills that do nothing to stop the pain.
