INQUIRY INTO COAL SEAM GAS

Name: Mr Bruce Clarke

Date received: 1/09/2011

Any politician with a bit of common sense would realise that to allow coal seam gas extraction in Sydney basin [Sydney,Wollongong,Southern Highlands,Central Coast etc] is utter stupidity. To stuff up our groundwater, air quality & farmland for a few dollars & a few temporary jobs does not make sense. THINK OF YOUR CHILDRENS FUTURE! WE WILL BE JUDGED ON WHAT WE HAND ON TO THEM. Thanks
