

INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW

Name: Name suppressed

Date received: 15/02/2013

Partially Confidential

I am against same sex marriage because I think of the children of same sex couples. I put myself in their place and I would not like to be a child of same sex couples. I think of how these children would feel and how they would be so open to ridicule and possibly abuse by children of male and female parents. They are the forgotten issue in this problem - they have no say yet it affects the whole of their lives. If same sex couples want to have a relationship, so be it, but please do not legalise their marriage and commit children to a life of ridicule. Put yourself in their place. It may be fine when the children are small but as they get older I feel it would be devastating for many of them to know they had two fathers or two mothers.
