INQUIRY into the N.S.W. Mr. Ninian F. Struthers

Planning Framework;

"SUBMISSION "REVENUE"

"MAIN THEME: WATER TRANSFER" 15.8.08 Ref: 33%94

Dear Sir/Madam NEW RAIL PIPES, CHATEAUCOOD KU-RING-GAI-CLYBURN POINT NATIONAL PARK TRAFFIC BALANCE WATER

As one Lady up North mentioned ONE NATION all Political Parties froze **RECEIVED** knowing in the Background She was right which is true, the lady had the right idea, with this Submission there is "Doubt" as same would't Ask For which I'M glad you take the time to present same for evaluation. A lot of good Politicians with good Ideas, but the System at Present, No Forethought for Future Planning Foundations (NOTE) for every person in AUSTRALIA not only this State

The reason for above, "shows" add on System, as new Developments surface every sewerage System is added to when floods arrive all systems Fail Refuse goes into our seas "Polluting every Coastal areas where Happens, no Transfer Systems in the areas affected, Mines Flooded, letter sent on this problem to N.S.W. government, Same advised me to send to Research A.C.T., Canberra, Previous then wrote Send to Government N.S.W.??? this has to stop, each person answers not knowing Previous correspondence-different person, no blame game, get it right! NOW Turn Brains on;

Each item mentioned melds towards one, Future Forethought Developments "for ALL Australia" In a letter to a South coast Shire Council which will be Centre "Your Captain Cook" Just took charge of A new Large block of Land 1st. convicts ashore, Now Future Foundations for Developments, "Emergency EXIT" Land "Sinks", all Aboard. (CHINA-Darwin-Maitland-Newcastle Disasters) Two 1958 Nuclear Aircraft Carriers-10 new Large Landing Barges-Shallow Draft, reason Both Poles melt "SINK" now that water level stays constant the boats that saved you supplied VITALS.

DEFENCE CONTRACTS FOR ALL above and next, "WATER TANKS", after Exploring the Block of ground, is Immense so so SIX TIMES 360 litres per person and 20 million Convicts arriving on first Fleet, all the land areas must be Supplied with MAINS TANKS that Mr. Menzies-Chifley are about to lay down, now with the need for large Amounts of Fresh Water you build Two, Two mile Large inlet Pipes to in under the Mains Power PLANT (TIDAL), 1958 "Type Nuclear updated" Above, as you find A lot of Coal so Selling these items Ore, U235, Wheat, gas, Exports, with such a large amount of Convicts you lay down Twin Large MAINS water Supplies lines with new Railway lines from your MAINS TANKS (SNOWY-Vic, MOUNTAINS CATCHMENTS AREAS for Distributing, Radiating out North South West East from primary source, Pipes and Gravity to every River for "ALL" INLAND" your Power Plant is Producing Massive Amounts of Water so With Climate Changing you Build on every down hill Grade HYDRO unit for (Power-FLOODS-Treated Returns-Sewerage) to have a System all around all coast Lines (EXAMPLE) Fitzroy-Kangaroo Valley Hydro Transfer System your New Mines all transfer to this system for above underlined so that hole dug replaced with a Water transfer System ALL around Van Diemens land-AUSTRALIA, now that your water pipes-Railway lines cross Block of ground "Disasters above" (switch Point - open different Valves on MAINS WATER PIPES LINES, you find 100 year old pipes the natives put down so new pipes replace old.

Now that you have your Future Forethought Foundations Down for Development any new Developments have instant Sewerage that is treated with Floods and ALL transferred Inland to Rivers, Lakes, Marshes, rivers, Dams, Rivers, lakes, Marshes, dam in that order so that Plankton Supplies are ALL clean for our MARINE FOOD supplies we eat and fish eat Permanent River Flows Always; SEA MOUTHS OPEN!

"WATER MEANS HEALTH-LIFE" now you can plan for "future" Health, throwing the Boomerang at each other, Losing Revenue 20/20. Summit, "OH for one Nation? Deduct Pay when Fights occur over Parties Squabbles if no direct Concrete Planning is Done Deduct pay. the time talking Writing iv'E just lost 100 bricks of Convict Bungalow. SO your planning must be Foundations first, WATER Increased Supplies Multiplied 360 litres x Population of Australia to MAINS tanks, 2nd. Back up Tan Desalination plant South Australia other end of block the ORD does the top and QLD. N. West N.S.W., Transfer pipes TWIN LARGE TWO WAY DIRECTION send 2nd. suppl from every city, Town, Shire, Coasts, Floods Transfers to inland River Systems. W.A

"AIRCRAFT CARRIERS-NEW BARGES A MUST." if Darwin-China type Disasters occur these UNITS Built with Massive WATER TRANSFER ABILITIES can be moved to anywhere and supply POWER WATER EMERGENCY SUPPLIES, barges pick up population, Chemicals, fuel, Machinery, and Importantly "Transfer treated Sewerage" to New LARGE TWIN pipe inlets every Main river Mouths for transfer to inland instead of polluting sea

To Finish up on one Page Please excuse scroll, learnt it on the Sailing ship out to this fine Country bit hard to start up with ball and chain dragging, so FUTURE FORETHOUGHT, FOUNDATIONS, DEVELOPMENTS, EXPORTS, HERITAGE, WATER, RAIL, GAS; Geothermal, Fuel Storage Woomera Bomb Range, New Airport Holsworthy, Remove Bombs Old AMMO, prevailing winds 360% no fog. Best Regards Yours Jock Struthers

PLANNING ENQUIRY COPY

"WATER BRINGS LIFE"

20.4.08, Ref: Nos 33/94 + 482 ²⁰⁰⁴

Dear Sir/Madam

after watching, Listening carefully to the recent Summit with due regards to All Persons involved all except one obtained nearness to main reason for this SUMMIT, to as usual put All down on one page as previous letters on this subject Future Foundation, Sustainable Development (FURGENT) (WATER, SEWERAGE),. When you build a House (AUSTRALIA) you must put Down Your (1st, (FOUNDATION) also be able to in future Add to, join up for Future Development. WATER, Sewerage, at the same time ADD all other Services. With the Floods all around Australian Shores and massive Amounts of Revenue lost shows very short stage planning with Most sewerage systems Failing. First you have your WATER TANK WITH ADDED SUPPLIES, OF "FIVE TIMES" to "MAIN OUTPUT" SUPPLY, Bottom Half of "ALL AUSTRALIA". Multiply 360 litres X Population, each person, "Bottom Half", Output. Included in this is SEWERAGE-TREATED RETURNS-FLOOD TRANSFER, "ALL AUSTRALIA". so that every flood, "any coastal area", is immediatly TRANSFERRED INLAND. on your SECOND RETURNS to rivers, lakes, Marshes, Clean Plankton returns for Marine food, Water supplies, to all our Coastal Oceans. MAIN TANK BUILT BY BOTH "PARTIES" MENZIES-CHIFLEY under Defence Contract, The SNOWY MOUNTAIN SCHEME, "ADD" FIVE TIMES SUPPLIES WITH LARGE DESALINATION PLANT N.S.W.-VIC., Mountain Border, REASON ABOVE, "ALL BOTTOM HALF OF AUSTRALIA." SOUTH AUSTRALIA PLANT BACKS UP EDEN-BOMBALA PLANT, Inland pipes across Central Australia adds to GEOTHERMAL plant and bottom West Australian Supplies, Woomera, all inland catered for, (4) uses. DOUBLE LARGE NEW PIPES (TWO) "TWO WAY OPERATION", REPLACE 100 YEAR OLD SYSTEM, MAINS SUPPLIES, TRANSFERS, All around Australia, THE ORD with input from DARWIN-CAIRNS supplies the top of Australia, North west N.S.W., Perth via the Coast from the ORD, input every main fresh water River to also supply inland West Australia. New Large Twin pipes, Rail built at the same time supply all Major Revenue for Major Outlay as detailed on previous letters sent to all "Planning Departments, Research Canberra?" Height and Weight of Water used for Hydro Power, Monitors, 1800swater pressure Nozzles, power supplies, look whats happening to KURNELL PLANT? no Proper Height for plants returns. FRESH WATER WEIGHT must be used to assist transfer treated returns inland like N.S.W., Fitzroy Falls-Kangaroo Valley Power, Water Weight, Transfer to Polluted weed covered dams, rivers inland, as mentioned FIVE TIMES SUPPLY NEEDED IF NO RAIN Life, Buseness, Shire Councils Deteriorate ALL over Australia. Gravity Rivers ALL used where available, Murry, Lachlan, Goulburn, Murrumbidgee, Darling, Mc, intyre Maquarie, ALL fed from Mains SUPPLIES TANK, and Second transfer returns thru Rivers, lakes, Marshes, Dams, Rivers "FRESH" plankton Water Food Marine Supplies, with as above S.A. OSMOSIS PLANT, INLAND PIPES FROM ORD ADDING TO SUPPLIES.

For years All talk no Concrete Action on Climate change has let Water get to a delicate level as with no major rain it gets worse, this new twin pipes double direction, must be large in size as for very large Flood-treated-returns "TRANSFERRED INLAND FOR PERMANENT RIVER FLOWS ALWAYS." New Heavy Rail from our City Centre is a good idea but please Make Redfern-Everleigh-Elstons a Main Central Museum-termanal-Hot Water From Steam trains used to clean Trams, Buses, Trains, Mono rails for three important reasons, revenue input to pay for every Movement of each above, "IMPORTANT" Emergency EXIT out of the City when wire breaks on bridge, smoke stops the Underground, WATER-Treated Returns, Population Flow During Large events, Peak hour, 1988 Population Overflow barometer showed. therefore your west rail Corridor shows it's value, Double New twin pipes as Well, Gas, Power COMM. To finish up Other rail-Pipes urgent, Chatswood-Ku-ringai Kingaroy Esk Ipswich, Dorrigo URGENT, Revenue input, Bairnsdale Eden-Bombala A.C.T Goulburn Sydney, Same Revenue input Snow Tourism Eden HBR. DEFENCE, Exports ALL Waste, Fuel, Rail Corridor "NEW" Two New Aircraft Carriers Nuclear Powered With 1958 Techknowledgy Upgraded as safe so far for Water Transfer, Emergency power, Large Barges, Shallow Draft landing Barges 15 Needed, As Above underlined to save people, Chemical spills, Machinery, Fuels, During Major Floods, Water Transfer to stop Sewerage Over-runs-Night releases. Gold Coast-Murrwullumba Rail-Pipes for more details see previous letters sent, Best Regards to All Australians all the very best in Future Foundation Sustainable Developments. 1970^s-1980^s-1990^s-2000^s. RAIL SUPPLY TUNNELS TO UNDER EACH OSNOSIS PANTS." Yours Sincerely

WITH THIS PLANNING ALL LINK UP WITH PIPES Jock Struthers

1AIN WATER-SEWERAGE PIPE LINES AROUND ALL AUSTRALIA

20m-ALL MAIN RIVER MOUTHS TO INLAND, "GRAVITY WHERE AVAILABLE."

3ARGES, A.C. CARRIERS TRANSFER WATER, SILT TO SALT AFFECTED LANDS:.

Dear Sir/Madam

In regards to previous letters sent Dealing with above, ALL your "HERITAGE" Foundations have a great deal to do with Balance, "Foundation Outlay," "Revenue Input". With the recent Massive Earthquake in China and the Destruction that occurred, "No Power, water, all services," You Plan your Foundations for ALL Businesses, Services, to link up from any Direction in ALL Australia, sustainable Developments. All new Ports and old must link up, the same for Rail, Gas, WATER, SEWERAGE-TREATED RETURNS-T.Rs., Power, "Emergency EXITS" for same, population as well, for the last 20 years no experts have rectified the WATER system green Algae in Dams, Rivers, Low Water, "flooding Mines," sewerage plants over-run, ALL are Polluting our coastal rivers, seas, "planning for these" Non Existant, "Exports all in shut down Mode, no-Water Transfer Inland available to remove same instantly, and stop Massive Revenue loss as above, when unexpected floods occurred, ALL new Mines must be catered for with Twin large double direction New Pipe lines and Railway Corridors linking up, Gas, Power, COMM. all major inlets of river mouths dredge type couplings to Mains transfer pipes lines to remove treated returns.

"Quick Outline on Previous Letters" "WATER SUPPLIES FOR ALL AUSTRALIA"
Mr. Menzies-Chifley "BOTH" built our first Mains WATER TANK, "AUSTRALIA IS A GIANT House Block, Foundations First," WATER, Power, gas, Sewerage, Communications & so on, Because of your large block, five or six times 360 litres x by future populatic water supplies have to be added to Mains WATER TANK to drop Climate Change output of power with Hydro, 1800s Monitors, (Fitzroy-Kangaroo Valley, Hydro Transfer Solar, Windmills, Gravity, Height Must Be Critical for Desalination-Power Plant to Fill, Overflow, Flood, to clean, Flush, refill, dams, overflow filling ALL lakes and Marshes, Prime New Large Twin Pipes SUPPLIES LINES from radiating point out from MAINS WATER TANK, this gives All permanent River flows for "FRESH" plankton flow for all Marine Food Supplies, every River inlet, ALL flows spread out from the (N.S.W., VIC. Border Eden-Bombala) "Snowy" Mains "TANK" Catchments Areas Supplying All States towards South Australia and beyond, Your 2nd, very large Desalination-- Plant-OSMOSIS backs up first and Third "THE ORD" to cover ALL inland, Geotherma and West Australia, input is the Same ALL around Australian Coasts Mains Fresh WATER from every large river Enroute, "FOR A REASON" ALL your Second Treated Floc returns (sewerage) T.Rs.) ALL track towards the centre Inland Mains Rivers filter THRU Power stations-Intractable Incinerators to rid Ourselfs of Plastic Bags, Boiled TWICE, before Release "Permanent river Flows." The New Large twin Direct-- ion pipes with new Railway Lines cross Australia from the ORD to Queensland an North west N.S.W., INPUT from Darwin-Cairns for Both Fresh water and T.Rs. to All Inland River systems, Permanent River Flows ALL Future Foundations ready for any New Sustainable Developments. " 2nd. Release sequence inland, rivers, lakes, Mars -hes, Dams, rivers, lakes, marshes, Dams, rivers ALL have Fish Ladders Fresh Marine Food

"HERITAGE" 1958 Two New Nuclear Powered Aircraft Carriers No Apparent Trou ble so far, Updated in Safety-Designs, 10 New Large Landing Barges, (Shallow Draf ALL on Defence Contracts-Heritage for Emergency AS ABOVE CHINA. all items above be Designed with WATER, POWER, PROPULTION, TRANSFERS same Food Stores, "so on" able to be moved to any Port ANYWHERE in times like Above, MINES POWER? WATER, SUPPLIES.

"EMERGENCY EXITS" Darling Harbour. Heritage. NO 100 year old Pipes-NEW TWINS AS ABOVE same duties, New Heavy RAIL Water from West, South, Kurnell Osmosis Plan Watch Viabrations-Liquifaction, Height, Hydro. New MAINS TERMINALS, MUSEUMS, ALL IN ONES for city Everleigh, Elstons, Darling Harbour, Mono rail, Buses, Trams all around foreshores City for not so able, no late trains as Museum Above E. Elston all working Museums for steam trains, Hot Water, Cleaning, working into, out from These Working Museums all from around Australia Heritage rail Vehicles for All Moving-Living in, Working from, Tourist ACC. all new-old Railway sidings to "All" -- Benefits ALL Shire Councils, Businesses, every old railway line Viable for Input Revenue. ESK Kingaroy Ipswich Brisbane, Gold Coast, Border, Murrwillumbah, Casino, emergency Exit Rail-pipes Corridors, Dorrigo West Same, Bairnsdale Eden-Bombala, A.C.T., Sydney, same, Melbourne-Brisbane, W.A., to Queensland New Ports same, Bourke Melbourne Wonthaggi, think of everybody else on our block AUSTRALIA not only You -- selves, in return for use of all Heritage Vehicles, all done up at Everleigh-ELS tons Working Museums ALL their Tracks are "re-done" for use Above, WATER TRANSFER Gravity used Wherever Possable, AS Usual please excuse scroll, One Page Submissi --N, use the Brains for Forethought in Future Foundation Sustainable Developments Best Regards to ALL yours Sincerely Jock Struthers.
