I am an avid user of forests and parks mostly for off road motorbike riding. I am also a member of several organisations that help to maintain these areas. I am also the father of a 4 year old who already enjoys riding his motorbike around our farm. I am very hopeful that he will have the opportunity to enjoy our forest and parks as I have for much of my life.

There needs to be a balance between use and management of these areas but many of the minorities who seem to have a large voice are against almost all use of these areas. Recent history with firs has shown that due to these minorities many houses and lives were lost due to the controls that stop what many consider common sense management of our bush.

I hope that common sense can prevail and we can all work together to keep these areas open and safe for our and future generations.
