I would like to make a submission as a former teacher, former parent, and present grandmother of pupils of the Tottenham Central School in support of the PandC of this school in regard to the building of \$600,000 useless Tuckshop at \$25,000 per square metre which is not even air conditioned or dustproof!

Okay this idea of jobs and all this stimulus business is good in principle, BUT this is a pure waste of the tax dollars we work hard to pay and is helping put Australia well into debt!

Private schools have been able to use the money for miles more than the public schools (who were told what they were getting, where it went, and who built it). The waste of money is unforgivable and should be instantly stopped until the costs are under control and there is much more consultation with the schools involved!
