Marriage is ordained of God between a man and a woman. No person, institution or government should correct what God has organised for the good of the family and community. Marriage is the beginning of a family, which is the addition of children to a mother and father. Both the mother and the father bring different strengths to the table and are both needed in the raising of a child. Children may be raised up by single parents who do the best they can, but it is still a handicap to the child. To institute such a handicap on purpose by allowing 2 people of the same sex to get married and begin a family makes a mockery of our family oriented community & culture
