

**INQUIRY INTO PERFORMANCE OF THE NSW
ENVIRONMENT PROTECTION AUTHORITY**

Name: Mr Andre Hacobian

Date received: 28/08/2014

Dear Sir/Madam,

There are some things we all need to be happy. Health is one of those things. Without a healthy environment we get sick.

That's why we need the EPA to be effective in it's job; because if the environment is sick, we're sick and then how can we enjoy life?

Please consider your future happiness and that of your children when you hold the proposed enquiry.

Remember - you can't eat. drink or breath money.

We didn't evolve from money, we evolved from nature; healthy nature (or environment) = healthy people and happier lives. Simple, yes?

Yours sincerely,
Andre Hacobian
