Summary

Submission to Impact of Commonwealth WorkChoices legislation lodged by Cherry Stewart

As listed on your website, the rather short time of providing comment is unreasonable, especially since the final report is not due until November 23. From the notice of request for comments on the legislation to the close we have six weeks, for consideration of such limited consultation, the committee has six months. Surely, consultation in such a diverse society takes longer than deliberation! This demonstrates a bias and lack of concern for the opinions of the public. It demonstrates a 'whitewash'!
