INQUIRY INTO GREYHOUND RACING IN NSW

Name: Mr John Faddy

Date received: 29/10/2013

John Faddy,

I am a butcher by trade and have involved in greyhounds since 1948 as an owner and then a trainer.

I support the thrust of the coordinated industry's approach to the greyhound inquiry which will support the greyhounds quest for a fair share of wagering distribution between the thoroughbreds, harness and greyhounds in NSW and also a fair share of the distribution through Government racing taxes being made equal percentage deductions in all States and Territories. These reforms if agreed to will put NSW on an equal footing with the other States and also make Greyhound Racing in NSW more viable.

In the past people with greyhound knowledge and experience on the ground ran greyhound racing administration and it ran a lot better so I would recommend that we go back to past practices.

Yours Truly,

John Faddy.
