

INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW

Name: Name suppressed

Date received: 15/02/2013

Partially Confidential

It is with great concern for true family values that I write this submission. Why is the State Government calling for submissions when the federal Government has just confirmed the outcome on marriage for Australia?

The marriage of one man to one woman for life has been the foundation of our family communities and must not be weakened by something less than natural.

The existing understanding and structure for families should not be changed to suit a vocal minority who wish to impose their views on the majority. This was clearly seen by the Federal Government's result.
