## **INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW**

**Name:** Mr Charlie Dunne

**Date received:** 7/02/2013

---

Hello,

I am writing to voice my objection to same sex marriages. I find it disturbing that this is being considered because of the impact it will have, not necessarily on this generation but on the next. The break down of the marriage / family is the beginning of the end for society. I know you will think "another Christian bible basher" and maybe i am , but my belief in God and my attempt to live life by His rules and to teach my children to live the same way has kept me and them from the misery of addictions and crime and broken relationships. Gods way is proven many times over to be the best, the only way to live. When the bible teaches clearly that marriage is for men and women and that any sexual relationship outside of marriage is forbidden then why even consider it.? For votes? To keep the noisy majority quiet? Please don't do it , for the good of this country and its people and to obey the rules of a loving God.

Regards Charlie Dunne
