INQUIRY INTO NSW WORKERS COMPENSATION SCHEME

Subject: No to increasing workers compensation Policy rates

Dear Sir / Madam

Workers compensation rates are already excessive and to increase them to a higher level will be detrimental to our business as well as similar businesses. To pass on massive hikes in premiums to clients will only end up increasing the cost of building and slowing the economy .

Why isn't a scheme introduced where people /employees/ employers take on commercially available insurance policies such as accident and sickness or TPD policies and the whole workers compensation system abolished.

Yours faithfully .

Cameron Smith
