Don't allow our prisons to be sold off!!

To whom it may concern,

I wish to register my objection to prisons being privatised.

I do not agree that prisons should be run for profit.

I am very concerned about the real possibility of losing transparency and accountability of prisons, which if they remain in public hands, should continue to be guaranteed.

What about the potential job losses in the community and running prisons on a bare minimum thus putting staff and inmates in an even more dangerous situation?

Let's not allow let the short term dollars blind us from being a responsible Government.

Please act in the best interests of New South Wales and Australia and ensure the privatisation of our prisons does not occur.

Yours sincerely  
Stephen Clegg
