

INQUIRY INTO NSW WORKERS COMPENSATION SCHEME

Name: Name suppressed
Date received: 9/05/2012

Partially Confidential

Current issues are that there is a threat to increasing premiums by 28% in New South Wales if the scheme is not reformed, NSW already pays far too higher costs over Victoria and Queensland, the scheme needs to be in line with Victoria and Queensland and follow their systems which seem to be working, NSW has a \$4 billion deficit and the state cannot support this.
