

INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW

Name: Ms Maree Nichols

Date received: 7/02/2013

I bring forward my submission as I OPPOSE the same-sex marriage legislation to be brought inn... I strongly believe that marriage is a union between man and woman only... to bring up healthy and stable children. It does not matter what the UK brings inn or any other Nation. This is certainly not the way to go for Australia!

Marriage is a federal issue and not a State issue under the Australian Consitution! To bring in a Bill in NSW relating to any type of marriage or same-sex marriage would be invalid and unconstitutional. This would only bring confusion...we should not change Australian Heritage or the Australian Constitution that has served us well and kept this Country in order and safe for Centuries...I urge and greatly encourage you not to stand and support same-sex marriage due to these issues...We can not give everybody everything they ask for? This is not what Australia is about! Lets stand for our true values,morals & ethics that were put in place by our Forefathers who fought for freedom..start changing what is not broken and you will lose your freedom...thank you for hearing my concerns.
