

INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW

Name: Mrs Erin Woods

Date received: 15/02/2013

I believe that marriage is between a man and woman, so has the history of the world since the beginning of man, so why do we need to change this strong and traditional legislation that encompasses the rights of all children to begin with a mother and a father. This is so important for children and what they learn from both their mother and father. If same sex couples want to be recognised, let them come up with their own definition of what it is that they are. Don't let the minority change the rules or move the goal posts to suit them.
We stand for man and wife for life!!!
