INQUIRY INTO GREYHOUND RACING IN NSW

Name: Name suppressed

Date received: 13/10/2013

Partially Confidential

To: Legislative Council Select Committee on Greyhound Racing in NSW

Date: 13th October 2013

Submission Heading: Prize Money

Relevance/Terms of Reference: The economic viability of the greyhound racing industry.

What I would like to say:

The cost of maintaining and racing greyhounds is very expensive particularly if they do not win prize money. I think appearance money (now called travel allowance) should be increased to at least \$100 for the first dog and then a sliding scale for remaining greyhounds.

We are supplying the product and are not getting paid for the hours to attend a meeting on race days, perhaps we can look at the Victorian model.
