The Director
Inquiry into continued public ownership
of Snowy Hydro Limited
The Legislative Council
Parliament House
Sydney

Dear Sir,

I write on your call for submissions to your Committee as published in the Sydney Morning Herald this morning.

I believe that Snowy Hydro Limited should be kept under present public ownership until the people of Australia express a desire for change that would improve its operation within the following terms.

- a. That the decision be made by national referendum.
- b. That the United Nations and government of the USA show greater desire to work together.
- c. That there be a world meeting of national governments for the purpose of establishing a clearer definition of all economic matters within the global economy.
- d. That our Federal Government meet our State Governments to produce a national plan for our water conservation and distribution.
- e. That our Government try to foster a greater reliance on the establishment of priorities in all workings.

Thank you for this opportunity to contribute to the workings of this Committee.

Yours faithfully,

David Williamson
