**INQUIRY INTO THE PRIVATISATION OF PRISONS AND
PRISON-RELATED SERVICES**

Organisation:

I grew up in Grafton which has a maximum security prison. I have heard that it is also slated for privatisation, this action has the potential for significant job losses on the Grafton community which has lost many many industries over the last thirty years or so. apart from that you only have to look from a humanitarian point of view to the privately run American prison system to see what a social disaster that is. Please reconsider this action to not only Grafton prison but all NSW prisons. Regards
