

INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW

Name: Ms Anne Boyce

Date received: 9/02/2013

Dear Sir,

Biologically it is clear that marriage is meant for heterosexual couples. As the family is the basis on which society rests, it's the duty of governments to promote the good of heterosexual marriage and the safe nurturing of children in the loving environment of their biological parents. Numerous studies have proved beyond doubt that such conditions are optimal for children.

As we as a nation are not replacing our population, what is going to become of Australia if barren and unnatural unions are made legal? Could it possibly be a fact that politicians have no care for the future of Australia or for the preferences of the people?

Anne Boyce,
