**INQUIRY INTO THE PRIVATISATION OF PRISONS AND  
PRISON-RELATED SERVICES**

I do believe that privatising our public prisons will not serve the general community. We will lose transparency and accountability. Job losses will be inevitable and therefore am absolutely against the sell off. Does our government really want to escape the responsibility and leave the inmates to the mercy of private contractors? What about our children? How safe will they be? I say no to the Prison sell off!
