PROPOSED SALE OF SNOWY HYDRO LIMITED

Organisation:

Name: Mrs Judy Treloar

Telephone:

Date Received: 2/06/2006

Theme:

Summary

We are tabling our objection to the proposed sale of the Snowy Hydro Scheme.

The reasons for not selling are numerous -

- The sale would put control of the eastern seaboard's largest generator of renewable energy and source of clean water into private ownership.
- At a time when the dangers of climate change are universally recognised, it essential that control of water and energy remain in public hands.
- Private ownership would see Snowy Hydro run for private profit not public benefit.
- We built it; we own it; why sell it?

Please assist to keep an important part of our history and an invaluable piece of our national infrastructure in public hands.

Regards

Michael and Judy Treloar
