INQUIRY INTO PACIFIC HIGHWAY UPGRADES

Organisation:

Subject:

Summary

I strongly object to the proposed move by the RTA of re-locating the Tintenbar to Ewingsdale section of the Pacific Highway.

This move will be a dramatic compromise of the lifestyle, environment, social and business structures.

The Double B trucks must be re-directed inland for noise and safety issues.

Every resident in Byron Shire has experienced a terrifying encounter with these juggernauts.

It is imperative that the trucks are moved away from the busy coastal roads.

The proposed destruction of one of the most beautiful coastal view points in NSW would be a travesty.
