INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW

Name: Name suppressed

Date received: 31/01/2013

Partially Confidential

I'm writing this in the interests of all adults having the same rights.

I'm straight and divorced, my children were bought up in a single person family, they both completed their education, they both work and pay taxes, my point is that the 2 parent family of mother and father is rare. Some of my best friends are gay, it breaks my heart that they don't have the same rights as I do.

Afterall shouldn't they have the right to marry and be just as miserable as the rest of us so called normal people! Sorry joking!
