

INQUIRY INTO GREYHOUND RACING IN NSW

Name: Name suppressed

Date received: 6/11/2013

Partially Confidential

I am against the senseless killing and treatment of greyhounds after their trainers/owners have no use for them. This is the case with race horses too. Homes could be found for the gentle greyhounds - they are great family pets! As for horses... the racing industry sends them to the knackery - plenty of little girls in the country would love to own a horse. The racing industry should be made to make a mandatory 1% levy payment of the takings OR a 1% levy on all bets - to provide care for these horses and dogs who have provided them with winnings. It is a callous and hard hearted business-only-decision mindset that should be stopped - a throw away society! Animals are living beings and deserve a better end. Please stop this!
