## **INQUIRY INTO COAL SEAM GAS**

**Name:** Mrs Ruth Ceballos

**Date received:** 14/09/2011

---

As a resident from Kearns, I live close to the site wharfage proposes to drill 72 gas collection wells as part of their Camden Gas Project- Stage 3 without counting all the drilling under/close our homes.

I am very concerned about all the nasty effects on our health and the environment because I am aware what this industry is doing in Queensland and USA and more we are not sure about the long term effects on soil, water and whole environment.

I agree that the government should put a moratorium on CSG and duly legislate in a responsible way looking after the welfare of people now and for the future.
