**Summary**

I have been a professional musician for over 30 years and so many gigs have been brutally smoke polluted. Although the situation in the last few years has been far improved, there is still a long way to go before the guy sitting behind the piano gulping in lungs full of second hand smoke can escape smelling like a fire in a brewery when he gets home to his family.

Please help us keep our minds and bodies free from other peoples addictions.

This has persisted for too long.

Stop smoking in venues NOW!

Rick Melick
