## **INQUIRY INTO GREYHOUND RACING IN NSW**

**Name:** Ms Keita Tarlinton

**Date received:** 6/11/2013

---

Dear Director,

I'm writing in regards to the greyhound racing industry.

It concerns me greatly that there is not enough being done for the welfare of these animals during their racing life and after they are not considered profitable. Thousands of greyhounds end up in the pound each year because they are being bred for sport and discarded when they are not winning or deemed too old. It is disgusting that a country like Australia allows this sort of treatment to happen to "man's best friend". Like the horse racing industry, people are profiteering from the exploitation of animals without any legal consequences .

I ask that something is done about this immediately.

Sincerely,

Keita Tarlinton
