Dear Director,

I believe all creation big and small deserve to be treated with kindness and respect. Using greyhounds for sport alone is out dated and barbaric, then to top it of, treat them in such a horrific way is just unimaginable.

Please investigate and prosecute those who engage in animal cruelty. Eliminate the. Use of drugs and other dangerous stimulants given to these beautiful gentle creatures. And lastly, reduce and eventually stop the exploitation of these graceful loyal dogs that gives us unconditional love Please look within your heart, and use your compassion to do what is right.

Thank you for the opportunity to cast my input into this situation.

Sincerely,

Carmeline T
