INQUIRY INTO COAL SEAM GAS

Name: Name suppressed

Date received: 14/09/2011

Partially Confidential

We are trashing the planet. Coal Seam Gas will, as has already widely been demonstrated, poison the earth, the water and the air.

Please STOP or put VERY STRICT CONTROLS on this damaging industry.

I ask why Australia which has a tremendous amount of sunshine, not use SOLAR POWER. I request that Solar Power be used widely to provide energy. It will cost less than setting up CSG plants and be eco sustainable.
