Subject:

Summary

THE DIRECTOR,
GENERAL PURPOSE STANDING COM.
No 4, LEGISLATIVE COUNCIL,
PARLIAMENT HOUSE,
SYDNEY ... N.S.W. 2000.

Dear Sir,

Re: Coffs Harb. Roads & Mr. Andrew Trayner.
Having lived in Woolgoolga/Coffs Harb. region for
twenty three years & felt compelled to write to
you re: the above.
During my residency in Woolgoolga/Coffs Harb. &
personally I have been forced off the road no less
than four times due to speed from various drivers,
both semis and cars taking no notice of speed
signs whilst on the highway. Those of us through
everyday dealings had to gain access onto the
highway from 1. Temple Woolgoolga, Moone Beach,
Emerald Beach ect. not to mention various outlets
south of Coffs Harbour would literally sigh with
relief that "we made it." A common saying
in the municipality! Unfortunately, many residents
can recall those who didn't "make it"!

Re: Mr. Trayner's incident in Parliament?
Some call it passion without thought. A call of
the end result of many years of care, frustration
and fear for the people within his municipality.
Mr. Trayner has always put the welfare of his
constituents before the "Almighty Dollar" and
as an ex resident of three years I wish to
personally thank him for still trying to
stop this ongoing carnage.

Yours faithfully
Helen Jordan

HELEN JORDAN.
