INQUIRY INTO GREYHOUND RACING IN NSW

Name: Ms Chanelle Warren

Date received: 6/11/2013

Dear Director,

How can you say we live in a free country when killing innocent animals is allowed. To think that you are a superior race and no other animal is important is just the dumbest thing going. All animals deserve a life of health and a chance to live. Doing this kind of harm to animals in Australia, how does it make you different from the third world countries who abuse animals, which is all over television. Rather than fixing other countries, how about fixing Australia, seeming as though their need for winning and feeling confident comes from the 'superior' action of abusement and death to animals. This should never be happening anywhere in the world, let alone Australia, who claim to be more evolved and "the lucky country" doesn't seem like such a lucky country for animals.

Sincerely,

Chanelle Warren
