**INQUIRY INTO THE PRIVATISATION OF PRISONS AND  
PRISON-RELATED SERVICES**

We should not be selling off public assets in this current economic climate. It will mean the loss of jobs while we are trying to stimulate the economy. Also, the government will not be getting the best price for \*our\* assets.

Parklea prison is in the centre of a residential area - I don't think a private company should be given the responsibility of running a prison in this area. No private company - and especially those applying for the tender - have shown a good enough record to be running these prisons and the risk, for everyone, is too high!
