To Whom it may concern

Surely a child has a fundamental right to grow up in a family with a mother and a father, I know circumstances do not allow for this always.

The proposal to allow same sex marriages takes away any chance for the child to grow up with a clearly defined mother and a clearly defined father.

This legislation destroys the notion of a family unit and totally devalues the meaning of family and all the reasons why a family is seen as the best place in which to rear children which are mentally stable and resilient and can go on to contribute positively to our society.
