Dear Committee

PROPOSED NSW BILL TO LEGALISE 'SAME SEX MARRIAGE'

I object to the legalising of "same sex marriage" for several reasons but the main two reasons are ~

1) God our Heavenly Father and creator of the world and everything in it, made both male and female, only to be joined together so therefore this is the best way for people to live and 2) children need both a man and a woman as parents as each bring different attributes into parenting, These different attributes are vital for children to grow to become balanced and responsible adults as well as being able to relate to people of both sexes. It saddens me immensely that "same sex couples" can adopt children for I feel that these children will grow up confused and this is one more aspect of life they will need to sort out.

I feel very strongly about this and a government that legalises "same sex marriage" will not get my vote in future elections.

Yours sincerely

Yvonne Gunning
