INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW

Name: Mr Ken Kirwood

Date received: 11/02/2013

The vast majority of societies throughout the world have, for thousands of years accepted that marriage is between one man and one woman. For the husband and wife and their children, there has never been a better arrangement to fulfil the purpose and obligations of marriage. Yet a very vocal minority is striving to change what has stood the test of time, even though their proposals are biologically wrong, and not supported by the majority of our population. 12 other countries may have accepted it but we don't have to blindly follow suit.
