

INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW

Name: Mrs Katherine Lehmann

Date received: 30/01/2013

I believe that all adults should have the right to marry the person they love regardless of sexuality. To say that one kind of love, relationship or marriage is more proper than another is the same thing as saying some people have less worth. It says to others it is Ok to treat people in same sex relationships as less worthy and as second class citizens. There is so much intolerance and hate in the world already surely allowing anybody who wishes to publicly express their love for their partner through marriage is a no brainer for an equal supposedly civilised society
