

INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW

Name: Mrs Sarah Hosan

Date received: 15/02/2013

Please, please leave the sanctity of marriage alone! It is our proud history, it helps define who we are as a nation. One who honours the right of children to be raised in a biological family, it honours the wonderful values our nation has been built on. Children need protection and I believe that by changing the definition of marriage our children will be confused, It will have an absolute negative effect on the generations to come. Come on Australia! Protect marriage, think of our children. Let's be world leaders in preserving marriage between man and woman!
