

INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW

Name: Name suppressed

Date received: 15/02/2013

Partially Confidential

I am concerned that so much of the governments time is being taken up discussing the issue of same sex marriage. Endorsement of same-sex marriage by our government will only encourage practices that will contribute to confusion and unhappiness for many of our young Australian's. Young people ought to expect adults and our legislators to give them right directions for their lives. A long-term goal of the homosexual lobby is to be able to teach our young people that homosexual and heterosexual marriage are on a par with each other. But clearly they are not the same. Male and Female anatomies tell you this very quickly which is the design and plan of our Creator. From my observation homosexual relationships have a higher break up rate than heterosexual relationships and won't provide the stability for our nation like a heterosexual family could. Statistics tell of a lower than average life expectancy for homosexual men, as well as no procreative potential, all endorsing very clearly that Same Sex marriage is not a healthy thing for our government to be promoting in Australian Life.

Please be assured that I am opposed to same sex marriage being made law in Australia.
