

INQUIRY INTO NSW WORKERS COMPENSATION SCHEME

Name: Name suppressed
Date received: 11/05/2012

Partially Confidential

NSW Workers Compensation Requires Reform - not unaffordable increases. NSW Business is already carrying a heavy load of workers compensation premiums compared to the larger states - this will only force my company to redirect employment growth to Queensland.
Listen to the Australian Industry Group and the voice of all businesses in NSW - we can not afford any increases in Workers Comp premiums.
