

INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW

Name: Name suppressed

Date received: 15/02/2013

Partially Confidential

Honorable Members.

It is with regret that I am compelled to petition you to refrain from considering allowing gay marriage in Australia.

I believe that the Honorable members need only look at the daily news to see the outstanding degree of moral decay in this nation and the results of that decay on the community as a whole.

The repercussions of changes to laws over the last decade or two are bringing about the destruction of our society. There must be boundaries which society may not cross, for the good of that society.

Legalizing blatant homosexuality is only one step towards moral destruction, however legalizing gay marriage would be stepping across a chasm to the destruction of families as they have been known since man and woman first came together and produced offspring. Need I remind the Honorable members that nature itself displays for all to see, that man and woman were made to compliment one another in ways that same sex couples cannot.

I implore you to hear the voice of your intellect, your conscience, nature itself and importantly, the voices of children who desperately need to have a Father and a Mother, to raise them in a balanced, healthy and reproductive environment.
