Chair: Hon Marie Ficarra MLC,

Dear Madam,

I am opposed to the establishment of The Ethics Courses in N.S.W Schools, - mainly because it promotes secular humanism and situational ethics and gives no teaching on The absolute standards of behaviour as given by God to Moses in The Ten Commandments which form The very basis of our total cultural framework & provide an absolute standard of correct behaviour from a source with whom no one can argue. It does not teach that The answer to man's failure & These standards is found in The atoning death of The Lord Jesus Christ, The only sinless life ever lived, who rose again in triumph over sin & death & provides The means for us to live rightly with each other in an orderly way and a sure hope to be with Him forever in eternity in Heaven when our bodies sleep in death. Yours sincerely J Kellahan
