THE TRANSPORT NEEDS OF SYDNEY'S NORTH-WEST SECTOR

Name: Ms Burnette Mitchell

Date received: 11/10/2008

Dear Sir,

I have lived in Baulkham Hills since 1988 and have seen the district change from a sleepy suburb to a up and coming township. The suburb of Bella Vista and especially the Norwest Business Park have transformed the area into a bustling satellite town.

For too long we have laboured without a decent railway transport option. Instead, we have been given increased road facilities. We are grateful for these upgrades but we want to get out of our cars and off the roads. In this time of climate change, I appeal to the NSW government to put in place a heavy rail link and support a reduction of greenhouse gas emissions for the betterment of NSW. Anything less than this is short-sighted as the North West experiences increased commercial and residential migration.

Yours faithfully,
Burnette Mitchell
