Subject: Show Australia that we can be brought into the 21st century and stop the cruelty

Dear Director,

Australians are one of the biggest dog owners in the world. We love and celebrate our pets as treasured family members. If more of the public knew about this dirty secret, I am absolutely certain that there would be an outcry over the backward and cruel treatment of Greyhounds.

Please bring Australia into the 21st century and show the world that we are a moral and just country. And show Australians that you deserve our vote.

Sincerely,

Lucinda Dryden
