**INQUIRY INTO THE PROVISION OF EDUCATION TO
STUDENTS WITH A DISABILITY OR SPECIAL NEEDS**

Name: Mrs Susan Barton

Date received: 11/02/2010

I am the Mother of two interlectually disabled adults. My children went to a Special School and would not have progressed into happy adults without the support of the teacher's Aides while they were at school. Special needs children need one to one support in the classroom .As well as in the playground . the playground of a primary school is confusing for a child with special needs. Where they can go and where they cann't. These children need all the help we can give them and deserve it.
