

INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW

Name: Name suppressed

Date received: 15/02/2013

Partially Confidential

Marriage by definition is a union between a man and a woman. Next they will want to marry their dog or pet of some kind and if you change marriage now you won't have any reason to not change it again. Families can not be made with just male or just female. If they want a union, they can give it another name. Don't degrade or change what marriage is. There are more important things that need politicians attention than chasing this silly change again.
