Some of my make Friends dissussed this and they would also like to be involved in the Sport of racing a greyhound, but we found the costs too prohititires

I have watched my Father Struggle to rear and freed his Greyhounds and he tells me that many others do so also find it difficult Just to sustain their sport. It is essential that the sport has longevetity if young people are not encouraged to entre the sports now, givin the Eact that most Greyhord trainers are aged between 40-60 then there will be very few new trainers and owners to replace them when they retire.

I am really conserned about inequity in the current System Everyhound toking NSW received 13% of the TAB takings, despite generating more than 20% of betting revenue. I am realiable informed that Greenward Riacing NSW has strongly argued that this innergnality has cost the code \$125 million Since 1998.

Please investagate and rectify this inJustice
